

April 2020 News Update

PAIN RELIEF WITHOUT PATIENTS LEAVING THEIR HOME

**Consider a device that patients can use at home,
which may help avoid a viral exposure**

Think about your patients that have ongoing pain; consider prescribing Provant Therapy. Provant is a safe, non-drug, pain management device FDA cleared for home usage.

- Provant can be prescribed for up to 120 days without the need for repeat patient visits or new consults.
- RegenesiS Biomedical ships the device directly to the patient's home, and we have nurses who in-service them over the phone.
- For your patients already on Provant, perhaps extend their treatment time so their pain is being treated throughout the duration of the COVID-19 virus pandemic.

Provant®
Therapy System

For postoperative pain relief, consider Provant® Therapy. Provant is dual-field electromagnetic therapy, proven in clinical trials and real-world patient experiences to provide meaningful pain relief and improved quality of life. To learn more, please contact your RegenesiS Biomedical representative, call 877-970-4970, or visit www.regenesibio.com.
