

DRUG ABUSE IS INCREASING THE DEATH RATES FOR MOST GROUPS OF AMERICANS

Prescription opioid abuse is a growing concern nationwide

June 2017 Newsletter

A recent article in the Washington Post reports that the opioid epidemic that has lowered life expectancy among white Americans is taking a rising toll among blacks, Hispanics and Native Americans. The increase in deaths is primarily due to drug overdoses and alcohol abuse, according to U.S. Centers for Disease Control and Prevention. Opioids stand out. The abuse of drugs is a national crisis, with addicts also overdosing on heroin and synthetic drugs such as fentanyl, which is far more powerful. You may view the full article [here](#).

RegenesiS Biomedical offers the Provant Therapy System, which is a safe, non-drug alternative for pain management. Provant relieves pain through its proven mechanisms of action: reducing inflammation and enhancing the body's naturally occurring opioids.
