

ARE YOU ATTENDING PAINWEEK IN SEPTEMBER?

Visit RegenesiS Biomedical in the exhibit hall to learn all about Provant[®] Therapy and safe, non-drug pain management

August 2017 Newsletter

PAINWeek is the largest US pain conference for clinicians treating patients in pain. Over 120 hours of continuing medical education and sessions are geared towards physicians, physician assistants, nurse practitioners, nurses, pharmacists, hospitalists, psychologists, and other healthcare professionals involved in pain management.

There will be full-day programs presented by the American Pain Society, the American Society of Pain Educators, the International Pelvic Pain Society, and the National Association of Drug Diversion Investigators.

You may learn more about PAINweek [here](#).

If you are attending, please come see RegenesiS Biomedical in the exhibit hall at booth 129 to learn about the latest on Provant Therapy, and safe, non-drug pain management. Provant Therapy relieves pain through its proven mechanisms of action: reducing inflammation and enhancing the body's naturally occurring opioids.

To learn more about RegenesiS and Provant Therapy, please contact your RegenesiS representative, or visit www.regenesibio.com. You can also keep up with the latest pain management news by clicking these links to follow us on social media:

If you have colleagues that would like to receive these monthly newsletters, please forward this email to them; they may subscribe by emailing us at newsletter@regenesibio.com
