

November 2021 News Update

NOVEMBER IS AMERICAN DIABETES MONTH®

The right diabetes management tips can be the difference between struggling and thriving

November is American Diabetes Month® and the American Diabetes Association (ADA) is promoting **The Big Step Up** against diabetes. You can join them! Take your health into your own hands through awareness, detection, management, and learning to thrive.

The ADA reports some staggering numbers: 34 million Americans have diabetes and another 88 million have prediabetes—a number that only gets more dire when you consider its associated health care price tag of \$327 billion. Today, diabetes causes more deaths than breast cancer and AIDS combined. Diabetes isn't a disease—it's an epidemic.

Diabetes is a constant battle, not only for those diagnosed, but for their loved ones, caregivers, and health care providers. Diabetes may lead to painful neuropathy. Incorporate diet, exercise, medication, and more into your daily routine.
